AREA OF EXPERTISE

- Languages: Python, JavaScript (React), SQL, HTML/CSS
 - Machine Learning: Random Forest, Gradient Boosting, Model Training & Evaluation, Feature Engineering, Scikit-learn, Pandas, NumPy
 - Web Frameworks: Flask, React.js, RESTful APIs
 - Tools & Concepts: Google Gemini API, Data Cleaning & Preprocessing, Git/GitHub, Computer Vision, NLP (SpaCy)
-

TECHNICAL PROJECTS

VectorSearch: Multi-Modal Fashion Search Engine | Computer Vision & Deep Learning

- Developed a semantic search engine using Computer Vision and Vector Embeddings to enable multi-modal (text + image) retrieval.
- Mapped product images to high-dimensional vector space, significantly improving search relevance over traditional keyword matching.

ResumeAnalyzer AI (ResumeAnalyzerAI.com) | Founder & Lead Developer

- Launched a full-stack app (Python, Flask, React) using Google's Gemini API to analyze resumes against job descriptions.
- Scaled to 100+ active users; engineered the NLP pipeline to extract skills and generate actionable feedback for job seekers.

Student Performance Prediction System | Machine Learning & Predictive Modeling

- Built an ML pipeline achieving 98% test accuracy using Random Forest and Gradient Boosting on a stratified dataset.
-

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer | Remote Jan 2025 – Present

- GKS Logistics: Architected a digital logistics system modeled after major providers (e.g., DHL) to digitize tracking workflows.
- Optimum Wp7: Designed and deployed a responsive corporate website, translating business requirements into a high-performance solution.

Web Developer Intern | L'Indicible Company (France) April 2022 – Sep 2022

- Translated client requirements into functional specifications for dynamic websites.
 - Conducted QA testing and collaborated with the dev team to debug code and optimize application performance.
-

EDUCATION

Bachelor of Technology in Artificial Intelligence | Houston City College Graduating in 2027

- Relevant Coursework: Data Science, Machine Learning, Deep Learning, NLP.

A.S. in Computer Science | University Paris 8 (2020 – 2022)

- Developed a comprehensive foundation in core computer science principles.
